

Safe meetings at Paasitorni

Helsinki Congress Paasitorni has made a long-term commitment to responsible operations according to the ISO9001 quality standard, ISO14001 environmental standard and the current legislation, regulations and recommendations.

The health of our customers and personnel is important for us. We are committed to measures that enable us to offer a pleasant environment for your meeting as safely as possible. We have made a list of procedures that will help us safeguard the health of our guests and personnel. **Please follow these measures with us so that we can continue to enable important encounters!**

Coming to Paasitorni

- Participate only if you are healthy.
- As you plan the schedule of your event, contact our sales service first to guarantee a suitable start and end time. To avoid rushes, we try to stagger the start and end times of events.
- Please follow our employees' instructions and safety distances as you visit the cloakroom and sign-up stand.
- Please note that the lifts are reserved primarily for physically disabled customers.

Respect the safety distance

- Keep at least a 1-2 m safety distance from other participants at all times. Do not shake hands or hug anyone.
- Our meeting and lobby spaces are spacious and adaptable. We have plenty of parallel facilities to reduce the number of people in one room. We consider instructions and our customers wishes regarding safe distances as we plan the facilities.

Take care of your hygiene

- We kindly ask you to take good care of your hand hygiene. Wash your hands often and carefully with warm water and soap for at least 20 seconds. Soap and disposable hand towels are available in the restrooms.
- Hand sanitizer is distributed in all meeting rooms, lobbies, restrooms and restaurants.
- If you have to sneeze or cough, please use a disposable tissue or your sleeve instead of your hand. Throw the tissue away immediately and wash your hands.
- We recommend using a face mask whenever close contact cannot be avoided.

A clean environment

- We have numerous meeting spaces with efficient air-conditioning. Primarily we offer these air-conditioned facilities for your event.
- Keeping the meeting rooms clean is an important part of our daily operations.
- During the exceptional circumstances, we pay even more attention to the hygiene of the public areas, restrooms, door handles and table surfaces.
- We always disinfect microphones and other meeting equipment before events.
- We also encourage our customers to disinfect the microphones themselves with disposable disinfectant wipes.
- Our employees will come to work only when healthy. We use face masks when instructing customers with the technology or in some other long-lasting close contact.

Enjoy the refreshments

- As you plan the schedule of your event, please contact our sales service first to guarantee a suitable time for breaks. To guarantee safe breaks, we try to stagger the serving times.
- We make sure everyone has a seat at a table or a corresponding surface. We organise seats at a safe distance from each other according to instructions from the authorities.
- Meeting and dinner services are organised either as a buffet or table service based on the nature of the event.
